HANDS-ON LEARNING

You rocked virtual school, but nothing beats being in person. Kids learn best when they “do,” so we have all the tools you need to keep them engaged and having fun all school year long.

Color cues
Yellow banana = ripe! Learning about color helps kids with pattern recognition and meaning.

Engaging a child’s senses beyond auditory and visual cues helps them grasp a concept faster.

A HEALTHY HAUL

Fun faves? For sure. But healthy and safe supplies? (Think sanitizer, wipes, masks and antimicrobial products.)

Yup, we’ve got it in the bag.

It’s science

Antimicrobial lunch bags, scissors and pencils prevent bacteria buildup.

A tip with their name on it

Sometimes not sharing is caring. Stamp and label clothes and supplies to prevent spreading germs and losing their stuff.

MISSION: STUDY SPACE

A dedicated space helps kids focus. Whatever their passion, help them launch into homework by creating an atmosphere they enjoy spending time in.

I love a theme!
But interests change as kids age, so stick to wall art and other accents that can swap out easily.
